

Evening and Saturday Clinics

As of May 29, 2017, the Evening and Saturday Morning Clinics will no longer be walk-in, but you will now be able to reserve a time slot for the same day only.

The receptionist will be available to start taking appointments as of 4:05 p.m. on evening of the Clinic or 8:35 a.m. Saturday morning for that the Saturday Clinic.

Patients should arrive at the Clinic 30 minutes prior to your time slot with their Medicare and KMHC hospital card.

Once time slots are filled, registration will be closed and walk-ins will not be processed. You are encouraged to call Info-Santé at 811, or call KMHC in the morning on weekdays to book an appointment at ext. 2220.

Physical exams/check-ups/medication renewals should be by scheduled appointments, not an Evening or Saturday Clinic. After the initial assessment, the physician will request that you book an appropriate schedule appointment with your physician.

Narcotics will not be renewed during these clinics.

PLEASE REMEMBER AFTER NURSING ASSESSMENT, PATIENTS WILL BE PRIORITIZED BASED ON SEVERITY OF SYMPTOMS, NOT BY TIME SLOTS.
